

# grandMA2 replay unit

- Real-time control for up to 65,536 parameters per session in connection with MA NPU (equivalent to 256 DMX universes)
- 4,096 HTP-/LTP parameters
- 6 DMX outputs
- 2 external TFT screens can be connected (UXGA, touchscreens accepted)
- 1 internal command touchscreen (7")
- 2 Ethercon connectors
- 4 USB2.0 connectors
- Neither faders nor keys – therefore easy protectable against faulty operation
- Various control interfaces

Beside the grandMA2 lighting consoles there is also a grandMA2 replay unit available. Its 19" housing enables easy integration into control room racks. Furthermore the grandMA2 replay unit offers all functions and features of the grandMA2 system.

The grandMA2 replay unit is especially recommended as architectural lighting control or easy mountable backup unit. It is a very safe playback/master controller, because to avoid faulty operations there are no built-in faders or buttons. Instead, the unit is operated by using the integrated touchscreen or a mouse and a keyboard connected via USB. A wide range of interfaces assures the most flexible use and the best performance within architectural systems.

# grandMA2 faderwing

- 15 motorized executor faders
- 15 executor buttons
- MA-bus connectivity to any console of the grandMA2 series
- Up to 4 grandMA2 faderwings can be connected to a console

The grandMA2 faderwing offers a comfortable way to increase the number of motorized executor faders and executor buttons. Up to four faderwings can be connected to a console – i.e. 60 extra motorized executor faders are available in total.
