

**Kea W - Bass Trap - Wall**

Bass Trap  
PRO AUDIO & STUDIO

**Description**

With a peak absorption from 80 Hz to 120 Hz, the Wall Bass Trap offers an enriched acoustic experience, directly attenuating standing waves. The various front designs available for the Wall Bass Trap allow you to create artistic patterns when mounted on the walls of your home studio or recording room, completely indistinguishable from the Artnovion absorber range.

The Wall Bass Trap - 595 x 1190 - equivalent to 2 standard panels, is equipped with a weighted piston membrane enclosing a volume with a high performance acoustic core. This design allows for a precisely tuned, high performance absorption. Bringing you the maximum performance in as least space as possible.

**Specifications**

Installation:

FixArt Tube | Kit Mobile Wall

*Disclaimer: When using FixArt Tube on the ceiling, it is obligatory to use the FixArt Lock security device. This system guarantees a safe and precise installation. Artnovion is not liable for any damage caused by improper use of FixArt Tube.*
